Subject: Help us PLEASE

1/3

Arizona Corporation Commissioners

We relocated here two years ago because of the outstanding values Sun City offered. I beg that you urgently consider our cry for help from the obscene price increases being requested by american Water Co. If we all looked, for ways to cut cost and stop increasing our cost of living here in Sun City. We can work together to drive down consumption and redirect gray water right here in S.C..

Why o why is the first and only answer to increase prices? has the water company really done everything to cut cost? remember we are retired mostly living on fixed income. We have no were else to turn to but you the AZ Corp. Comm.

please vote as if you were in our shoes or your mother or father on a fixed income, we need your help, can you please help us keep our water rates at current rates? What else can we do? Sun City has always been open to helping cut cost and we stand with you in defeating the cuurrent plan, lets work smarter not rob from seniors so that large corporations can pay outlandish salaries.

Common Sense, knowledge, and wisdom will guide your decisions, I know you will not leave us in shock wondering what to cut from our budget will you?

Thanks for your kind consideration.
